

STATEMENT OF WORK
Conservation Cover (327)
Oklahoma

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. List all required and/or facilitating practices
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Planting dates
 - ii. Site preparation
 - iii. Species selection and seeding rates
 - iv. Management of vegetation after establishment
 - v. Wildlife considerations
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the conservation practice standard Conservation Cover (Code327).
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during application as required
6. When soil erosion is to be calculated, the current NRCS approved erosion prediction technology will be used.

Note: Conservation practices Forage and Biomass Planting (512), Range Planting (550) and/or Tree and Shrub Establishment (612) will be required with this practice for establishment purposes, species selection, planting rate, planting dates and method of planting.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Application guidance as needed
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during application
7. Certification that the application process and materials meets design and permit requirements

Note: Conservation practices Forage and Biomass Planting (512), Range Planting (550) and/or Tree and Shrub Establishment (612) will be required with this practice for establishment purposes, species selection, planting rate, planting dates and method of planting.

CHECK OUT

Deliverables

1. Records of application
 - a. Extent of practice units applied
 - b. Specie(s) planted
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting

STATEMENT OF WORK
Conservation Cover (327)
Oklahoma

Note: Conservation practices Forage and Biomass Planting (512), Range Planting (550) and/or Tree and Shrub Establishment (612) will be required with this practice for establishment purposes, species selection, planting rate, planting dates and method of planting.
